

REVIEW OF MARKETS

FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

New York, March 2.—The stock market displayed weakness, particularly in the Grangers, Pacific and Specialties, practically all day with but incidental rallies. There was an appearance of support in certain stocks in the final dealings which caused a fairly steady close, although the Grangers were still under pressure. There was no news to account for the decline except for a firmer tone to money, call rates touching 3½, attributable to a call issued preliminary to the settlement between the Central Pacific railroad and the Government. The easier tone of sterling exchange was a natural accompaniment of the firmer tone in money indicating that an increase demand for money might contract the volume of American funds now loaned abroad. There were denials from bank officials of the current assertion that undue discrimination was being exercised against the Industrial collateral. Selling orders appeared from Boston and Chicago houses and London, while trading both ways was moderate, took rather less stock than it sold. During the day the bears many stop loss orders being uncovered, accelerated the decline.

While the weakness affected pretty much everything, especially heavy futures were Metropolitan, Jersey Central, Pacific Mail, Pittsburg, C. C. and St. Louis, Rubber and Brooklyn. American Tobacco left off with a gain of 2½ on the formal action of the directors preliminary to the absorption of the Union Tobacco Company.

The bond market to-day bore up remarkably well considering the pressure aggressive stocks. Some issues made an aggressive show of strength, particularly Louisville, Louisville and St. Louis 5's, which rose 8 points. Atchafalaya had good backing and the St. Louis Southwestern issues were better supported than for some days. Operations elsewhere were somewhat irregular, but there were no conspicuous losses outside of Southern Railway 5's and Standard Bond Income. The new Central Pacific and Southern Pacific bond issues in connection with the rehabilitation of the Central Pacific railroad were dealt in to-day, but ran off from the high price in sympathy with the weakness of the connecting stocks. Total sales, \$1,545,000.

The 4's in the bid price, and the 5's advanced ¼ in the bid price.

The total sales of stocks were 708,800 shares.

New York, March 2.—Standard Oil closed 4.86½@4.88½.
